

## Hartek Group takes power industry veteran Jeet Chhatwal as Director

The Hartek Group, one of India's fastest growing concerns in the power sector, has announced the appointment of power industry veteran Jeet Chhatwal to its Board of Directors. A noted power sector expert, management consultant and leadership trainer with 37 years of experience in

the engineering, procurement and construction (EPC) domain in the power, oil and gas sectors, Chhatwal will be responsible for setting the pace for the Hartek Group's current operations and scaling up its future growth in his capacity as Additional Director.

The Hartek Group will make the most of Chhatwal's rich experience to develop innovative automated systems and procedures for day-to-day activities which further improve productivity and bring more efficiency.

"Chhatwal's exposure in various multinationals in senior leadership positions will enable the Hartek Group to foster a world-class work culture that meets the avowed objectives of our organisation as well as the expectations of our clients," said Hartek Singh, Founder and CMD, Hartek Group.

Excited about his new role, Chhatwal said, "We will adopt the best global systems and practices to take the Hartek Group to the next level. What sets the Hartek Group apart is its diversified portfolio with an integrated model, and we will further build on it."

Chhatwal started his career with Indian public sector giant BHEL, where he worked for 17 years in various important capacities before switching over to internationally renowned companies like Fluor and Bechtel. He worked as HoD (Electrical, Control Systems) and Manager (Quality) with Fluor for nine years from 1996 to 2005 and as Project Engineering Manager and Chief Engineer (Electrical) with Bechtel India from 2005 to 2010. Chhatwal took his career graph to a new high in 2010 when he joined SK E&C of the SK Group, a Fortune 100 Korean multinational giant, where he worked for six years as Executive Director and Divisional Head (Engineering).
